## PROJECTS

**QuestBuddy** | <https://github.com/mnilou/quest-buddy> | <https://campaign-planner-nat20.herokuapp.com>

- A full stack MERN application for tabletop gaming, allowing players to create characters, campaigns, and schedule game sessions inside of a single app. Currently supports D&D, 5E.
- Project Responsibilities: Concept, Wireframes, React Components, API Routes
- Built Using: React, Node JS, External API(s), MongoDB, Bootstrap

**Dr. Fantastic's Tarot Readings** | <https://github.com/christopher-cruzcosa/life-reading-app> |

<https://christopher-cruzcosa.github.io/life-reading-app/index.html>

- A lightweight fortune teller application that gives users a short Tarot card reading. Uses the Tarot API for all card data.
- Project Responsibilities: Wireframes, External API Calls, Animations
- Built Using: Javascript, CSS, External API(s)

**GameKiwi** | <https://github.com/christopher-cruzcosa/bluetooth-coffee-cup> |

<https://infinite-plains-30611.herokuapp.com/>

- "A minimalist social media platform that allows users to share their 'top ten' video game list with friends and those interested. Uses the RAWg API for all game data.
- Project Responsibilities: Dynamic Rendering, Wireframes, Data Models
- Built Using: Handlebars, Node JS, mySQL, Sequelize, External API(s)

## RELEVANT EXPERIENCE

**CX Process and Analysis Manager**

2019 – 2020

**NYC Dept of IT and Telecommunications**

New York, NY

Process manager for the Customer Experience Management (CxM) division; the role's main areas of responsibility are customer data management, CX process design, and KPIs

*Key Accomplishments:*

- Stood up a Wiki of divisional process and procedures, using MediaWiki software
- Created an end-to-end process guide for Network design, procurement, and implementation
- Designed the algorithm used to continuously assess caseload size and capacity for all Agency Relations agents

**Agency Relations Manager**  
**NYC Dept of IT and Telecommunications**

2016 – 2019  
New York, NY

Account manager for a portfolio of client CIOs in the NYC government space; also, acted as unit lead for metrics, data analytics, and CRM development

*Key Accomplishments:*

- Managed a high-profile portfolio with NYC Office of the Mayor, NYPD, and 15+ others
- Briefed the DoITT Commissioner before high-level meetings on client projects on a monthly basis
- Represented external clients and the DoITT Incident/Problem Management Team during the resolution of dozens of major incidents, including several critical service outages impacting government agencies

**Quality Assurance Specialist**

2013 – 2016

**NYC Campaign Finance Board**

New York, NY

Lead developer and staff trainer on all data analysis programs for the Auditing/Accounting Unit

- Developed all Excel tools and workbooks for enterprise-use by the Audit Unit in the audit of hundreds of thousands of financial transactions
- Created a comprehensive data analysis of all financial data and all audit findings from the 2013 NYC election cycle

**ADDITIONAL EXPERIENCE**

**Battalion Logistics Officer**  
**US Army, Active Duty**

2008 - 2012  
Fort Hood, TX

**EDUCATION**

**Bachelor of Arts (B.A.): New York University (NYU), New York, NY**
